

**BELLEVUE CHRISTIAN
SCHOOL**

Dual Credit Offerings

Bellevue has partnered with Colorado Christian University (CCU) to offer our academically qualifying juniors and seniors the opportunity to take specially designated Bellevue upper level classes and also receive college credit. Transcripts for each course completed will be provided by CCU to the student. We currently offer Old Testament Survey, Government/Economics, Calculus, Physics, Chemistry, Astronomy, and Biology 2. If a student takes dual credit courses while at Bellevue, they will have college credits already completed upon high school graduation. Students are able to receive these college credits through CCU and Bellevue at a very low cost compared to college tuition.

In addition, over 40 College level courses are available through Grand Canyon University.
